Dear Ms. Dortch:

On April 27, 2011, Mark Dankberg, Chairman and CEO of ViaSat, Inc.; Thomas Moore, Senior Vice President of ViaSat, Inc. and President of WildBlue Communications, Inc. (a wholly-owned ViaSat subsidiary); Erwin Hudson, Chief Technology Officer of WildBlue Communications, Inc. and Lisa Scalpone, General Counsel of WildBlue Communications, Inc., met with Douglas Sicker of the Office of Strategic Planning and Policy Analysis to discuss issues presented by these proceedings.

The discussions focused upon the positions of record of ViaSat and WildBlue, including the current and future technical capabilities of satellites optimized to deliver broadband services, and the role satellite broadband could play in delivering broadband services to the unserved and in providing a positive competitive influence in the broadband industry throughout the nation.

Please contact me with any questions.
